THE SEMINOLE

MEN ENJOY BAND CONCERT AT MIAMI U

PRESIDENT ASHE SUGGESTS FORMING CAMP BAND

Will Try To Procure Instruments for Next Fall

AS A FAREWELL GESTURE TO CO. 269 BEFORE THE SUMMER VACATIONS BEGIN, MIAMI UNIVERSITY'S CRACK BAND GAVE AN EXCLUSIVE CONCERT TO THE MEMBERS LAST WEDNESDAY NIGHT. THE MUSICALE WAS WELL ATTENDED AND GREATLY APPRECIATED BY THOSE WHO MADE THE JOURNEY.

Omitting the classical symphonies the band played free simple highly emotional songs with plenty of variety included in its repertoire. Songs like "The Whistler and His Dog", "Anchors Aweigh", "Washington Post March", and "Yes We Have No Bananas" thrilled the fellows while it lasted.

It was a fitting finale to the series of events given by the university for our benefit during the past year.

Mr. Ashe, president of the university, expressed himself as being highly in favor of a broader program for the company men next fall when the new sessions begin. He has already contemplated forming a company band and said he would try to get the orchestral instruments for us.

J.G.

NINETY-SEVEN NEW BOOKS ARRIVE

WILL BE IN LIBRARY SHELVES TODAY

New life was injected into the library when a batch of ninety-seven books, through the cooperation of a circulating library, was received and immediately placed in the empty shelves which they now adorn.

Torn books were repaired. Much time and effort was expended in this work and now that they're in good condition once more, the readers are asked to be careful in handling them.

There are books for every taste: Anne Vickers by Sinclair Lewis, a book that probably outranks the best he has ever written, Claudia, The Cattle Baron, War Nurse, Men and Wives, The Passion Called Love, The Beacon Hill Murders, and many others await the reader.

Book worms are invited to taste the new volumes.

The scheduled appearance of Mr. Prince, the magician, fell through when Captain van der Stempel left us. His arrangements were made in advance but recent circumstances of reorganization necessitated a change in plans and the resultant cancelation of the program.

TRANSIENT CAMP HEAD VISITS COMPANY

Is Making Survey Of CCC Camp Facilities

Mr. Hardin, Superintendent of Transient camps for the State of Florida, visited this camp on his recent circuit survey of educational and recreational facilities throughout the state and expressed his approval of the efficient handling of the situation here.

On his rounds of inspection he gathered data on various camp activities in preparation for a report he will submit to the state authorities reviewing fully the chief features of camp programs. His facts will be used as a basis for coordinating more closely the agencies directly responsible for the interest of the young boys encamped in this state.

LIEUTENANT ACCOMPANIES CAPTAIN van der STEMPER TO FORT SCREVEN, GA.

Lieutenant Rudnitsky who is now at Fort Screven, Ga. will remain there ten days. He was detailed to accompany our former company commander deposed last week. In his absence Mr. Boudet has taken temporary charge of the lieutenant's work.

ON THE JOB

Last week was an expectant one for the new men. They've been working for the past month with one thing in mind--the day they get their fourth star. A good percentage of the fellows earned stars which proves there are some good ones in the new crowd,--good workers!

Too bad Mr. Lowe's gang was not awarded stars the first week. Now his bunch will be kept in suspense guessing who doesn't get the promised day off everyone's been striving for.

Most of the work consists of putting finishing touches--grading and general cleanups--on the project. This makes one feel doubtful that we will work in Greynolds Park much longer. It's rumored, with some credence in it, that we will be transferred to Matheson Hammocks just outside of Coral Gables.

George Scholtz is rapidly recovering from the effects of the accident he figured in last week. Magee, first aid man who took charge at the scene administered commendable temporary treatment and deserves credit for the fine splint he applied to the fractured wrist. It was the first fracture recorded in the park--and then it was unavoidable.

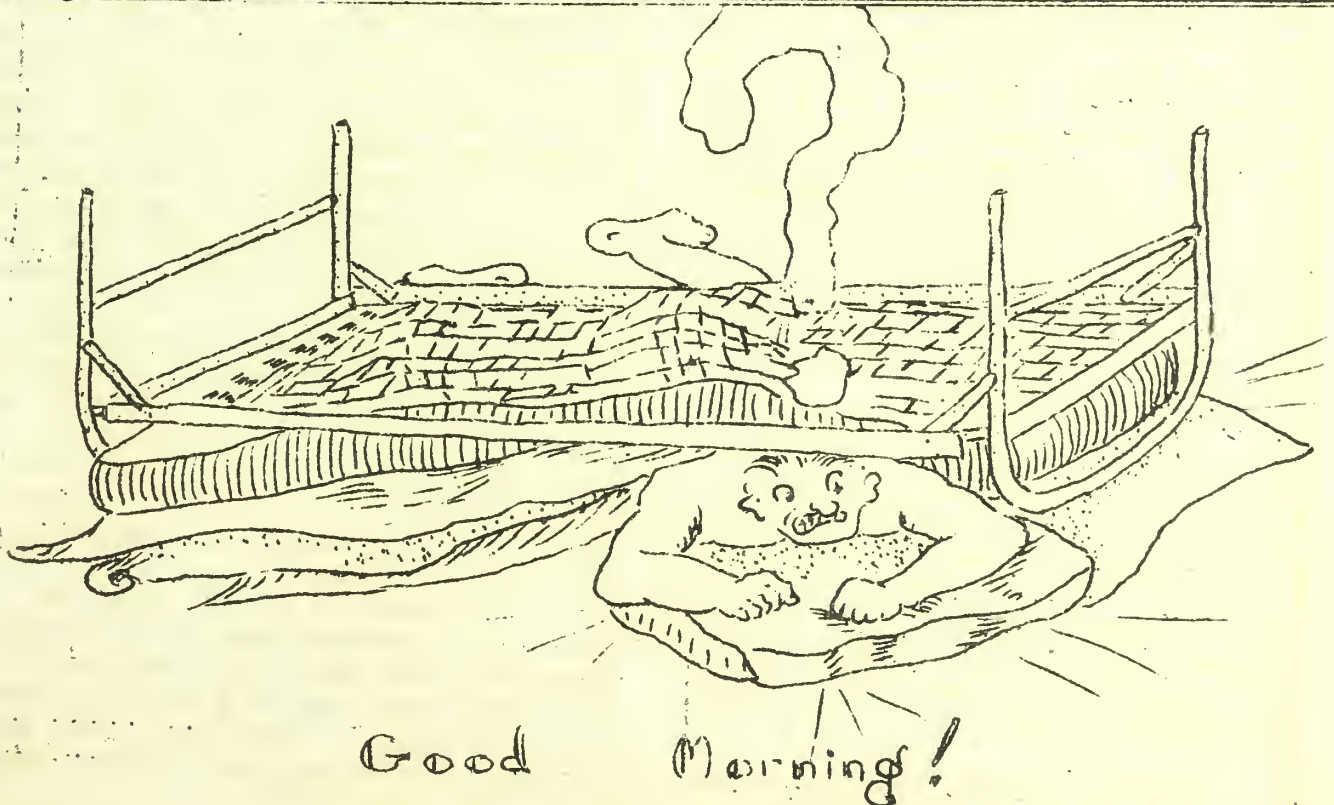

MAILETTE

MR. PHILLIPS, PARK SUPERINTENDENT, TO LECTURE IN PHOTOGRAPHY

Mr. Phillips, park superintendent and expert amateur photographer will give a short instructive lecture and demonstration to the photography bugs of our camp this coming Wednesday.

Mr. Phillips has had much experience in this work and will try to impart some of his knowledge to the men.

Mrs. Rudnitsky will begin a new class in Stenography for the benefit of those who wish to learn the subject but did not get the opportunity to take it up before.

MILK

The writer of this article can recall when the milk for our cereal was doled out by the K.F.'s every morning. Then we were furnished our milk in half pint bottles. This was very convenient and sanitary but, alas, seems to have been too expensive. So last week at each table there was placed two bottles of milk to be divided among the eight men seated at that table. Much to the surprise of many of us this system worked fairly well. The milk was poured into individual half pint bottles with almost no spilling and except in one or two cases, no chiseling. It must be a great temptation to many of the members to help themselves to the milk of the others and in a few cases they did. However the cheated member had only to raise a holler and Paul was there to find the thief and punish him and redivide the milk. Next day the system worked as if it had been in effect for months.

There were a few complaints that the half pint bottles were not very clean. Your correspondent investigated and found that the K.F.'s for Sunday were not as experienced as those who work there every day. It was promised that this would not happen again and we observed Prother Borthwick giving them a good scrubbing in hot and very soapy water.

Since we must get our milk in this manner there is nothing we can do but cooperate and be fair to all.

WELCOME CAPTAIN FREEMAN

You may not have come to the best of camps, nor to the typically rustic atmosphere, but we do feel sure you did come to take charge of the best of CCC men.

The Everglade as mouth piece for all extends a hearty welcome and ingenuous cooperation from members of this company who soberly but happily approve the installation of a new order for the old.

MORE POWER TO LEADERS

More power to leaders and assistant leaders was assured by Captain Freeman in a short meeting held Sunday morning in the Educational Tent. Although steps were not taken until definite arrangements are completed, Captain Freeman briefly outlined his tentative plans thus:

Elimination of morning roll call thereby doing away with unnecessary waste of time in the morning; the division of the barracks into zones over which a leader or assistant leader will assume complete control and will be directly responsible for the conduct of his charge; and the unique idea, sorely lacking under the old regime, whereby leaders and assistant leaders will act as representatives between the men and officers. Any grievances or matters of importance will be brought to the attention of the officers through these appointed men who have authority over that respective group which brings up questions for discussions.

In general it is Captain Freeman's intentions to have the men run the camp with as little interference as is possible from the officers. They will act silently, directing only when they see fit and advisable.

CLUB NEWS

JERSEY YORKERS

The Jersey Yorkers will hold their bi-weekly meeting this Thursday. Many important business matters will be brought up for discussion. Plans have been tentatively completed for another trip and only await its adoption at the next regular meeting.

Seven new applicants will also be duly inducted. Athletic events on the program will be rushed through so that challenges in all sorts of sports can be sent to other clubs.

Hallock of the Jersey Yorkers and Tom Penn, his team-mate, have issued challenges to members of other clubs to a match at anytime in horseshoe pitching. The challenge is also extended to men not connected with any club.

All members are urged to attend the meeting.

HALLOCK

BAR FLYS

The Bar Flys scored another point in the realm of sports on Saturday by going on the briny deep in a specially chartered deep sea fishing boat and indulging in the great American art deep sea fishing. Besides the original members a number of the other interested in the venture came along.

On the way to the Gulf Stream we passed the oldest light house in America built by the Spaniards with brick brought from the mother country, and which was the scene of many notable events in its time--the pirates of the Spanish Main playing a big part.

Along with seeing many specimens of fish on our way--sharks, flying fish and porpoises--we sighted a huge sea turtle.

After a long enjoyable ride through waves that set us bouncing about on the boat we started to fish in earnest. Zoda got the first catch and then Drab followed suit to take prizes for the smallest and largest fish caught, as the others hooked nothing but water. At this time the rolling sea began to claim its amateur sailors in the form of a sudden desire on the part of the afflicted ones to involuntarily cast food into the Gulf Stream over the boat railing. About half our number were soon

EDUCATION

Educational activities were almost at a standstill last week. What with Memorial Day exercises and pay day, which after all never warrants

in the clutches of Father Neptune's initiation of rookies.

Baxter Batten missed catching a dolphin because of his awkwardness

ZULLI

holding sessions in the CCC. Nevertheless the Civil Service "Bull Session" went over big with plenty to spare. All sorts of subjects are taught for those who wish to either polish up their rusty "gray matter" or to continue where they left off with their negligible schooling in this class.

It was announced that the First Aid course would be completed this week. With Dr. Batten's discourses on First Aid just about over the officers, foremen, and leaders are now preparing for their final test to be given sometime this week. Twenty-four students took the course manifesting interest in the work and coming to realize that much responsibility must be shouldered by them in the future in cases of accidents where first aid would be necessary and depending upon the first aider for proper treatment.

The Photography class is still going strong. It is now experimenting with enlargement work with its new improvised "enlarger".

BOXERS ENJOY TRIP

Early Saturday morning the boxing club set off for parts unknown. This trip had been planned with two objects in mind; namely, the drinking of a few score bottles of beer and sight seeing.

The whole undertaking proved a success, both as to beer drinking and sight seeing. The truck first stopped outside of South Miami to give the dry pugilists a chance to quench their thirst. The destination chosen by Mr. Harris, was reached at about 11:30, and immediately a fire was started and weiners roasted.

After the meal a short swim was taken. On the way home the travelers took a roundabout route going past Matheson Hammock, Coconut Grove, the Pan American Airways, the Deering Estate and other points of interest.

High Lights of the trip: Minovich's fancy diving and marathons swim; "FoeWee" Harris picking daisies; Mr. Boudet saying that it was "too late"; Foggia's marvelous water mellow eating capacity; Jones showing the boys how to start a fire with one match.

THE MALARIA TEST

Every man connected with CCC activities submitted himself to a blood test last Tuesday conducted by the medical corps dispatched from Fort Screven, district headquarters, in tests for the pernicious germ in precautionary measures to prevent outbreaks of this disease.

The plates used for the tests were sent to the laboratories at Fort Screven to be analyzed by expert bacteriologists.

According to one who knows we don't have to be particularly concerned, for the possibility of being bitten by malarial mosquitoes in this area are relatively remote.

DYNAMITE

I wonder what Wetmore will do when "Vic" Columbus goes home..... Who threw "Mo" Johnson's bed articles on the rafters of the barrack? It looks as if the fellers are beginning to quit patronizing their Canteen. What's wrong?..... "Fiddler" McCan doesn't seem to feel so hot after putting in a few days on the dynamite gang..... Marty's beginning to see his way through the depression. He paid two bits to a feller he owed money to for the past two months..... Reid thought he had a racket on "Pop" Wetmore's gang. Somehow or other his ideas don't gibe. He's beginning to think different now. Soon he'll complain how hard he works!..... LaChance fell for Dynamite's girl friend "Margy". What a scrap for first love is now in the offing--maybe..... Fontanini is beginning to wonder what his wife will look like..... Another innocent bystander was lured into the Holly Rollers select group.....

IT SEEMS TO ME

It seems that most of the fellows had a good time on the fishing trip Saturday except a few who were feeding the fish. All that Dauria caught was a cold..... Why did BBB lose the big fish he caught?..... Who were the fellows that went to a party in Uleta and almost forgot to come back.... Who is Pascoe going to work for after he has made the rounds of all the bosses?..... Believe or not fellows but George Scholtz now has a cute little girl friend..... Piskun was seen getting dressed for a date that someone made for him..... The two original Barflys were at it again!..... Who were the two girls that Tony E. was out with the other night? And he expects to get married!....

Pascoe & Company

SPORT

CCC BASEBALLERS LOSE TOUGH ONE

A poor umpire's decision was enough to turn the tide of victory in favor of South Miami in a weird ball game that saw the company nine lose by a 6-2 margin.

In the fatal fifth inning first man up for South Miami singled and then advanced to second as the next batter reached first on an error. At this point, with two on base the opposing batter attempted a bunt but deflected the ball into the air and McCune made a great stab nabbing the ball in the air for a spectacular shoestring catch. The men on first and second were quickly doubled off for a neat triple play to retire the side. But the blind umpire blundered and ruled the ball grounded for a hit loading the bags. After this rotten decision two hits, a sacrifice and fielder's choice produced 4 runs and the ball game.

South Miami opened the game with a two run outburst on two hits, fielder's choice, a hit and another fielder's choice. The company nine broke the ice in the third scoring on Kotula's bingle after Lazinski made a base on error. In the first half of the fifth Kotula's base on error, stolen base and wild throw by the catcher to third on a try to get Kotula as he tried to steal third figured in the final tally for the CCC.

A double play Boudet to Heidrich to Vargo was the fielding gem of the day.

COMPANY DIAMOND BALL TEAMS IN DOUBLE WIN

Two company diamond ball teams came out winners over two wity teams last Saturday night on the well lit Central field. The Yonks managed by Pietrowski won the opener against Home Milk by a 19-3 score, while Palmieri's Giants whipped the Banana Supply Co. by a 16-3 score.

Rambino was on the mound in the first game while Bianchi hurled the second. Bianchi was particularly effective and only got into difficulty with his wildness. Stafford led all teams both at bat and in the field.

The feature of the games was the three home runs propelled off the bats of Stafford, Pietrowski and Heidrich in the third inning of the first game.

MEMORIAL DAY PROGRAM
A SUCCESS

At 8:30 AM Memorial Day Walt Bennett's Old Timers tangled with Palmiere's collection of All-Stars (new men) in a game of Diamond ball. The knot proved to puzzling for the old men who lost the decision to the tune of 10-6.

Features of the game were Bianchi's masterful 2 innings of twirling, Stafford's mighty homer, errors galore, Reid's steady but not spectacular pitching, the ball in play being substituted by another.

Following the game the trucks returned to the barracks, after which the Jersey-Yorkers volley ball team administered a severe drubbing to the Bar Flys' team. In turn the Jersey Yorkers were given a shellacking by the Secret-4. This victory placed the secret-44. This victory placed the Secret-4 at the top of the pile for volley ball supremacy amongst the clubs.

The final event of the day was the trip to the ocean for a well earned swim. Another field day is promised us for the near future.

Our defeats aren't bitter if we don't swallow them.

HUMOR

LOPER

GAGS

HE SHOULD KNOW

DAURIA: "They say that fat people are rarely guilty of crimes."

MAGEE: "Yeah, you see it's kind of hard for them to stoop to anything low."

MISUNDERSTOOD

DOCTOR: "Casey, you'll have to take a bath before you retire."

CASEY: "But doctor, I haven't gone into business no less retire."

PERFECT ENDING

COLUMBUS: "Did the concert have a happy ending?"

PIESTRAK: "Yeah, everybody was glad it was over."

HOT STEPPER

BENNET: "My you have small feet."

GIRL FRIEND: "You don't seem to have trouble finding them."

A DANGEROUS MAN

SENECO: "Guess what I've got in my eye."

TOMAKA: "What?"

SENECO: "Murder".

LOPER

DeMOTT'S STILL IN THE FIGHT.

Because my hitch is over
I'm wishing you here
An enlistment full of gladness
And many days of good cheer.
I thought of you as my time went
speeding by--

In April, June and August,
My time was yours as in July,
But I must depart this day,
As my thoughts go out to you left here
Where hearts are bright and gay
My camp memoirs bestow good cheer.

May my happy wish and hearty
phrase as CCC days pull through.
Bring hopes of better days

While I always keep pulling
for you.

I send this message out to you,

I hope it will always stay
bright.

It carries assurance deep and true

That I'm with you thru the
CCC fight.

SO LONG

Your Pal
